

# ACADEMIC EXTENSION PROGRAM

A school-based Extension Program

The Academic Extension Program (AEP) is a school-based extension and enrichment program in English and Humanities and Social Sciences (HASS) for academically oriented students. It offers a unique opportunity for advanced learning accommodating each student specific talents.

The AEP program is designed to provide a supportive environment where your child can collaborate with like-minded students, creating a rich academic community.

Your child will be immersed in challenging coursework that stimulates critical thinking, enhances analytical thinking skills and fosters a deeper understanding of the topic of study.

Ultimately, participating in this extension program your child will not only cultivate a passion for learning, but also thoroughly prepare for future academic endeavours and professional success.

## RELATIONSHIPS AND PARTNERSHIPS

We build on a number of constructive and sustainable relationships and partnerships to benefit the students and their outcomes while at school. Among others some of our partnerships include:

### WE ARE A TEAM!

This program is made up of talented students with a passion for learning and a desire to question the world around them. While their individual achievements help to secure their place in the program, their involvement in a community of learners helps to foster strong friendships with like-minded peers in safe and supportive environments.

AEP teachers meet regularly to share expertise, provide feedback on student progress and to coordinate activities across the key learning areas. A close monitoring of students ensures an efficient individual mentoring and engagement.

### HOW DO I APPLY?

If you are a highly motivated and gifted student, we would love to receive your application.

1. Go to our website and complete the Specialist Programs online application.
2. Wait to hear from us with time and date for the entry test which will assess higher order thinking skills (usually offered in early June). This test is not content specific, so there is not study required to prepare for it.
3. Await results.
4. If your application is successful we welcome you to the Academic Extension Program and will invite you to submit your School Enrolment Form if you haven't done so already.
